

**A message from
Lesley Sachs, Executive Director of Women of the Wall:**

For 3 decades Women of the Wall (WOW) have been the leading voice for women's equality at the Western Wall. We have normalized the image of women wearing tallit and tefillin and praying out loud as a group. We achieved these freedoms thanks to YOU standing with us and supporting this battle for all Jewish women.

We are still fighting for equal access to Torah for women. We know that for our supporters worldwide, in any of their congregations, Torah is within easy reach. We demand no less in Israel at the holiest site for all Jews, the Western Wall. With you by our side, success and victory are the only possible outcome.

**On behalf of the Board of and Staff of Women of the Wall,
thank you for your unwavering support of our mission.**
